Mr. Ron Barger  
Project Future  
P.O. Box 1677  
South Bend, IN 46634

Dear Ron:

As you may know, I have been attempting for the past three years to recruit TGI Friday's to our community, and in particular to Edison Lakes. Although I believe we are getting closer and closer to a commitment from Friday's, I wanted you to know that your efforts have given us a tremendous boost.

Last week, the person we need to impress most about our area shared with me that he was driving to Chicago listening to WBBM when he heard an announcement about National Steel relocating to South Bend/Mishawaka. He also read last week about our community and Edison Lakes in two different publications, both of which spoke in extremely positive terms about our area. He found all of this to be very encouraging and is feeling even more positive about his decision to build a new Friday's in Edison Lakes.

As you well know, many times the results of your efforts cannot be tangibly measured. However, any success we may enjoy with TGI Friday's should be shared with you, Pat McMahon, and Project Future. This is one tangible example where your efforts are having an immediate positive impact.

Thanks again for all of your continued support in helping promote our community. Your efforts do pay off and are genuinely appreciated.

Best personal regards,

Donald G. Cressy
