

Meet your board-certified orthopedic surgeon...

Ron Clark, MD

EDUCATION: Athletic Training, Brigham Young University, Provo, UT; BMS, California College of Podiatric Medicine, San Francisco, CA; MD, University of Texas Medical Branch, Galveston, TX

RESIDENCY: Orthopedic Surgery, University of Texas Medical Branch

FELLOWSHIP: Sports Medicine, E. Marlowe Goble, MD, Utah State University, Logan, UT

BOARD CERTIFICATION: American Board of Orthopedic Surgery

MEMBERSHIPS: Arthroscopy Association of North America, American College of Sports Medicine, National Athletic Trainers Association, American Academy of Orthopedic Surgeons, International Society of Arthroscopy, Knee and Sports Medicine, Indiana State Medical Association

"I have an extensive background in scientific research and have developed several patented surgical instruments and techniques that have received attention worldwide. More importantly, I consider communication the most important part of each patient's visit and allow each person plenty of time to describe their health concern and ask questions. I've been involved in the treatment of athletic injuries since high school and was on the sidelines as a student athletic trainer. While studying foot problems, I became interested in taking care of all of the major bones and joints, so I pursued a degree in medicine and specialized in orthopedic surgery. I have contributed my skills as an associate editor with the *Journal of Arthroscopy* and related research."
