ORTHOPEDIC CONSULTANT: Portage High School

"I grew up in a large family where we all took care of one another. I was drawn to medicine because I like caring for people and making a positive difference in their lives. Today, I continue to keep up with the newest developments in my field so I continue to improve the services I give to my patients who have shoulder, elbow, wrist, hip and knee problems. I like the variety of helping people from all walks of life with all kinds of orthopedic challenges."
