"I grew up surrounded by medicine – my father was a pharmacist and my mother and grandmother were nurses. Today, I practice general orthopedics but have particular interests in joint reconstruction, sports medicine and arthroscopy. I believe in educating my patients about their options and treatment, risks and benefits. I enjoy empowering my patients with knowledge, thus enabling them to make informed healthcare decisions. I live in Chesterton with my wife, Megan, and our two sons. When not working, I enjoy spending time with my family as well as golfing and various other outdoor activities."
